Dear Sir

Thank you for meeting with us during our visit to Vasco on 26th June 2025 in connection with our FIP. It was a very productive exchange of information and we thank you for your thoughts and ideas.

During the meeting we provided an update on the Fishery Improvement Project (FIP) and the fact that we now have an extension to the end of December 2028. As we discussed, a key focus for us is on the adoption of a fishery management plan by the Goa fisheries department and its encouraging news that fishermen will be actively consulted on this. We are happy to provide any technical advice you may need.

It's discouraging to hear of the economic and other issues facing Goa fishermen. Some of these issues may be fixable via the proposed management plan – you mentioned the need for better classification of fishing gear and this should be a clear priority in the plan, as one example.

We will continue to keep you updated and look forward to your ongoing support.

Regards

ASHISH SALVI
