

Annexure-M12: Training Plan for Fishing Activity Recording System (FARS)

Training Period: Annual Fishing Ban Period (June – July)

Target Participants: Vessel owners, captains, crew leaders and fisheries stakeholders.

Training Objectives

- Introduce the Fishing Activity Recording System.
- Train vessel operators on how to maintain fishing activity logbooks.
- Improve awareness on reporting fishing effort and catch composition.
- Integrate ETP species identification and reporting procedures.

Proposed Training Topics

- Overview of the Fishery Improvement Project
- Importance of fisheries data collection
- Introduction to Fishing Activity Recording Logbook
- ETP species identification and safe handling practices
- Practical demonstration of logbook recording

Expected Outputs

- Training attendance records
- Distribution of logbook templates
- Improved awareness among vessel operators
- Initial pilot implementation of recording system
