

# Factory Raw Material Use Questionnaire

## Instructions on how to complete this form

This form is to help improve the data for the FIP. Most importantly, we want to ensure accurate data for Oman. We ask you to complete the (nearly) 3 years of data based on the fishing season until January 2026.

At the top of each form, please complete the factory name, manager name and QC number.

For the Annual summary and vessel sheet (Sheet 1) please put each species, gear and type of gear, add extra lines, as per the example in the sheet). For each species / gear type, please provide the quantity of each species put on board.

For the monthly sheets (Sheets 2-4), please provide the quantity of each species put on board but the amount is negligible, add it to the list and put the quantity as 0. For each month, please provide the total at the end of the season. Please add new rows for extra species if required.

If a species is not recorded, we will not include it in the FIP - so please be as complete as possible.

When you have completed the form, please return it only to Dr Jo Gascoigne at: jo.gascoigne@fip.gov.om

PLEASE NOTE: ALL INDIVIDUAL FACTORY DATA WILL BE KEPT CONFIDENTIAL; data will be aggregated for reporting.

---

sure that we are registering all the spec  
asons from September 2023 until May :

manager name in the space provided.

nd vessel type (e.g. if you buy the same  
ar / vessel type combination, put the tc

rched each month. Please add all the  
onth give the total kgs of raw fish materi

ite as possible. On behalf of the FIP tear
