Determination			
<p>The applicant is sourcing from an MSC fishery and the scope of the client’s application with regard species/stock/area and the MSC UoA matches. The client for the Norway North Sea herring - MSC fishery is Norges Fiskarlag/The Norwegian Fishermen’s Association (NFA) that represents all registered vessels in the Norwegian fleet fishing within the Unit of Certification. All products from the fishery landed by Norwegian vessels, sold through or by approval from Norges Sildesalgslag are covered by MSC certificate. Although the vessel list presented by MarinTrust client in 2024 contained about 215 vessels that are not listed as members of NFA in the website: https://www.fiskebat.no/medlemsfartoy, the MarinTrust client declared that by law, it exclusively purchases fresh whole fish through Norges Sildesalgslag, it has already a system in place for tracing all landed whole fish back to its fishing boats and have just recently been audited. Therefore, MarinTrust team decided that the stock is APPROVED in line with the MarinTrust Standard.</p>			

Notes for On-site Auditor

HOW TO COMPLETE THIS VERIFICATION REPORT

The process for completing the template for MSC Verification is as follows:

1. Compare the scopes of the MSC certification and the MarinTrust applicant fishery. Use **TABLE 3** definitions to complete Results section.
2. Reach a final approval recommendation. After completing Scope **TABLE 3** the assessment team will be able to provide a final decision on approval. Results shown in
- 3.
- 4.

5. **Table 2.**
